ORGANISED BY
DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

THE DEPARTMENT

The department of Computer Science and Engineering (CSE) at SRM Institute of Science and Technology was established in the year 2004 with the aim of imparting quality education to students and bring out the best in them. The key goal of the department is to provide best IT infrastructure, world class learning and research environment, adopt industry practices through industry collaborations and inculcate moral and ethical values. With students hailing from all States and union territories of India, the department was established to meet the demand for well-qualified computer professionals. The promptness of the students to learn makes it easier for the industry- trained experienced faculty to produce top-notch engineers who are being recruited by reputed companies all over the world. The department is renowned for imparting state of the art undergraduate education and preparing its students for real world challenges..

VISION

To become a world class department in imparting high quality knowledge and in providing students a unique learning and research experience in Computer Science and Engineering.

MISSION

- To impart knowledge in cutting edge technologies on par with industrial standards.
- To collaborate with renowned academic institutions in research and development.
- To instill societal and ethical responsibilities in all professional activities.

THE INSTITUTION

SRM Institute of Science and Technology (formerly known as SRM University) is one of the top ranking universities in India with over 20,000 students and 1,500 faculty, offering a wide range of undergraduate, postgraduate and doctoral programs in Engineering, Management, Medicine and Health sciences, Science and Humanities. Foreign faculty, flexible and dynamic curriculum, exciting research and global connections are the features that set SRM apart. Students have a wide choice of cutting edge programs including nanotechnology, bioinformatics, genetic engineering, remote sensing and GIS, embedded systems or computer forensics to choose from. Most of these courses are offered in close collaboration with foreign universities. 80% of students are from outside Tamil Nadu. Over 150 students sponsored to 35 foreign universities like MIT, Carnegie Mellon, UC Davis, Warwick and Western Australia. SRMIST has been accredited by NAAC with the Highest 'A++' Grade in the year 2018, valid for the next 5 years. Top salary INR 47,00,000 offered by Adobe. Nearly 100% placement of registered students: Adobe, Amazon, JP Morgan, PayPal, Morgan Stanley and others.

THE CONFERENCE

The International Conference on Advances in Computer Science and Technologies (ICACST '23) will provide an excellent international forum for sharing knowledge and findings in theory, methodology and applications of computer science, engineering and technology. The conference looks for significant contributions in all major fields of the computer science and information technology in theoretical and practical aspects. The aim of the conference is to provide a platform to the researcher and practitioners from both academia as well as industry to meet and share cutting-edge development in the field. Authors are solicited to contribute to the conference by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe substantial advances in the following areas, but are not limited to:
